Before...

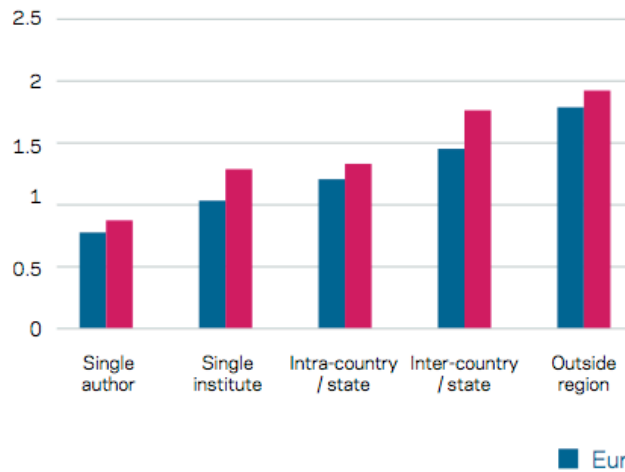

Collaboration in a competitive grants landscape

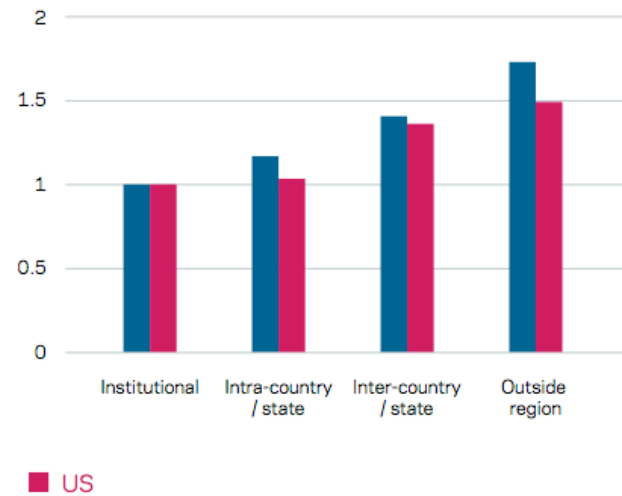

Collaboration positively correlated to impact

FIELD-WEIGHTED CITATION IMPACT
PER COLLABORATION TYPE (2007-2011)

FWCI FOLD INCREASE OVER INSTITUTIONAL COLLABORATION

FWCI FOLD INCREASE OVER INSTITUTIONAL COLLABORATION				
	Institutional	Intra-country / state	Inter-country / state	Outside region
EUROPE	1	1.17	1.41	1.73
US	1	1.03	1.37	1.49

Figure 8 — European and US field-weighted citation impact by collaboration type, 2007-2011, (left) absolute values per collaboration type, (right) fold increase over institutional collaboration.

What happens to the data...

- finding experts and collaboration (research-centric)
- getting more grant dollars (funding-centric)
- economic development (funding/economy-centric)
- enhancing other sites with relevant data (marketing/data-centric)
- creating new visualizations from data (discovery/insight/data-centric)

Pure Web Service

cc.demo.atira.dk/ws/doc/ — About the Pure web service

[PURESUPPORT-4911] FW: NYU Pure Dashb... Reed Elsevier WebEx Enterprise Site time in denmark - Google Search About the Pure web service

This is the Pure web service

It contains a **SOAP service** endpoint at </ws/pure4webservice/>. Point your tool to the WSDL for [current](#) or [stable](#)

You may also want to use the **REST service** at </ws/rest/>

Use cases and examples

[Person](#)
[Organisation](#)
[Research Output](#)
[OAI](#)
[Documentation](#)
[Available Endpoints](#)

Person

Description	Url
List of first persons	/ws/rest/person
Show a window of ten persons from 10-20	/ws/rest/person?rendering=xml_long&window.size=10&window.offset=10
List of persons order by last name	/ws/rest/person?orderBy.property=lastName
To Show information for a specific person, including organisation associated in xml_long format	/ws/rest/person?uuids.uuid=975731c9-a130-4444-9600-a73dadd16f53&rendering=xml_long
Show all research output for a specific person of contribution to journal - article	/ws/rest/publication?associatedPersonUuids.uuid=8983bb5d-99b4-4612-bef8-e4a29985fbbd&typeClassificationUri=/dk/atira/put/researchoutputtypes/contributiontojournal/article&window.size=20

Northwestern's SPARQL endpoint

vivo.scholars.northwestern.edu — Northwestern Scholars – Web Form

4911] FW: NYU Pure Dashb... Reed Elsevier WebEx Enterprise Site time in denmark – Google Search Northwestern Scholars – Web

 **NORTHWESTERN**
UNIVERSITY

Northwestern Scholars

Home > Semantic Web Portal > Sparql Query

Query Box

The query box at the right may be used for individual SPARQL queries, or you may use it to test a query that you wish to use directly with the SPARQL server. You may use or modify the sample queries below.

- [Feinberg Clinical Faculty in Northwestern Scholars](#)
- [List of Academic Departments in Northwestern Scholars](#)
- [Publications of a particular faculty member in Northwestern Scholars](#)

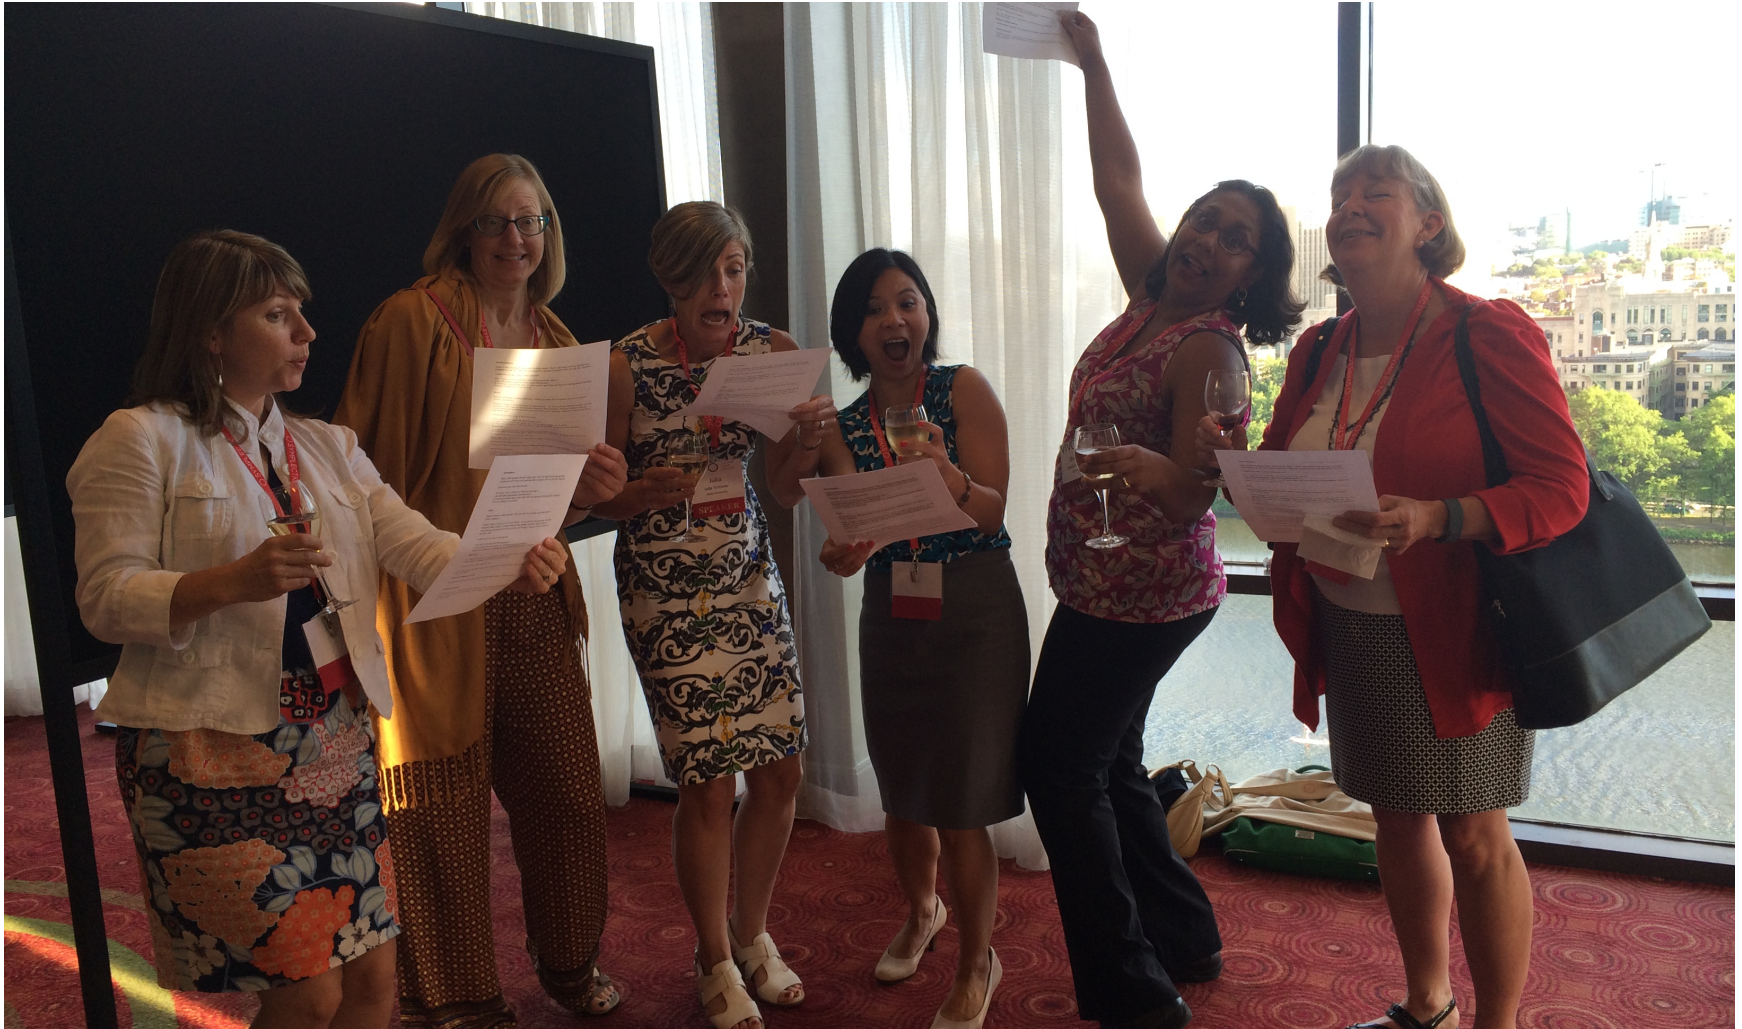

SPARQL Query

Please write your SPARQL query and select the output data format.

Output:

☐ Force the accept header to text/plain regardless (Only apply to Text and Csv Output)

After...

Elsevier Research Intelligence

Thank you!
